### **Certificate for the internship of Professor Taras Zabolotsky**

This letter confirms that Professor Taras Zabolotsky carried out an internship in the Division of Mathematical Statistics at the Department of Mathematics of the Stockholm University for three weeks from September, 28<sup>th</sup> to October, 19<sup>th</sup> 2020 under the tutelage of Prof. Taras Bodnar.

During the internship in the Division of Mathematical Statistics at the Department of Mathematics of the Stockholm University, Prof. Taras Zabolotsky participated remotely in the lectures and the class sessions of the course “Theory of Statistical Inference” given by Prof. Taras Bodnar. Besides that Prof. Taras Zabolotsky presented a talk in the research group of Taras Bodnar. The topic of presentation was “Some remarks on statistical inference of beta coefficient”. Prof. Taras Zabolotsky discussed with Prof. Taras Bodnar the possibility of further collaboration on the topics that lie on the intersection of statistics and finance and highlighted several possible directions of joint research. Moreover, Prof. Taras Zabolotsky was acquainted with the topics of master and PhD theses defended at the Department of Mathematics of the Stockholm University and gave some useful recommendations on their improvement.

Sincerely yours,

A handwritten signature in blue ink, appearing to read "Taras Bodnar", with a flourish at the end.

Taras Bodnar
