Kraków, April 15, 2024

Piotr Niemiec
vice-dean for study affairs
of the Faculty of Mathematics and Computer Science
at the Jagiellonian University
and
the supervisor for Olha's Popadiuk week-long research internship

UNIWERSYTET JAGIELLOŃSKI W KRAKOWIE

Wydział Matematyki i Informatyki

To whom it may concern,

I hereby confirm that Ms. Olha Popadiuk gave an interesting lecture at the Topology Seminar on April 10, 2024, for both scientists and students of the Faculty of Mathematics and Computer Science. This talk was given as part of her week-long research internship. As part of the exchange program between Ivan Franko National University of Lviv and Jagiellonian University (in Kraków, Poland), she was visiting the Jagiellonian University from April 9 to April 15. During that time we had many fruitful conversations.

Sincerely yours,

PRODZIEKAN
Wydziału Matematyki i Informatyki UJ
ds. studenckich
Piotr Niemiec
